

Altagamma

Design by Estel R&D

Altagamma Collection, designed to furnish executive areas and meeting rooms: the line consists of executive desks, meeting tables and containers. The base forms a frame available in various finishes: anodized aluminum steel, matt bronze or quartz pewter. The bases are connected to each other by a modesty panel which can contain a large amount of cables that can be used by the operator via top access. The possibility of using a Sit & Stand top from 75 to 125 cm in height has been added to the fixed desk H75, following the known ergonomic prescriptions that suggest an alternation between sitting-standing posture during working hours at the desk.
