Design by CRS Sitia
2014

With a unique and playful design, Klera is a collection of chairs and stools collection made of die-cast aluminum with a painted finishing. It is designed to adapt to different spaces, both indoor and outdoor. It changes its appearance according to the chosen colors: from a playful complement for a fun interior, to a professional piece of furniture for public areas.

Dal design unico e giocoso, Klera è una famiglia di sedute realizzate in alluminio pressofuso con finitura verniciata. Pensate per adattarsi ai diversi spazi, sia interni che outdoor, cambia completamente aspetto a seconda delle cromie scelte: da complemento giocoso per un interior divertente, ad arredo professionale per aree pubbliche comuni.
