TIMBER+STICKS

Zintra® Acoustic Solutions absorb internal and external sound influences reducing the noise level in a room. Being able to converse freely and not having to fight to be heard, people feel more comfortable in the environment and experience better speech intelligibility. Zintra® offers all of these benefits in a range of colors and applications that are sure to enhance your space.

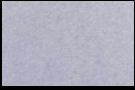

Zintra Timber and Sticks are the next exciting progression in this journey. Zintra Timber is a range of four timber "species" available ex stock alongside our existing 20 plain colors and offering all the acoustic benefits of Zintra. Zintra Sticks is a range of fabricated acoustic sticks supplied ready to install as a complete system or as individual lengths.

ZINTRA ACOUSTIC PANEL

Zintra Acoustic Panel is a cost effective sound absorption solution with an NRC of 0.45 through to 0.9 when used off the wall or out in the open. Available in a range of 20 neutral to bright colors, Zintra Acoustic Panel is supplied in 2800mm long sheets making it ideal for join-free floor or ceiling applications.

Zintra Acoustic Panel can be supplied as a sheet that is easily fabricated and installed, or in a wide range of finished solutions.

ZINTRA TIMBER

Emulating the grain of real timber, Zintra Timber extends Zintra Acoustic Solutions' palette with the addition of four "species". Zintra Timber combines the aesthetic beauty of the natural environment with all the acoustic benefits of Zintra Acoustic Panel (NRC 0.45-0.9). Ironbark, Spotted Gum, Merbau and Eucalyptus will be available ex stock (single and double sided) alongside the existing 20 neutral to bright plain Zintra colors.

Features + Benefits of Zintra Timber include:

- Lightweight
- No warping
- No need for finishing
- Cost effective
- Easy to install
- Available as pre-fabricated solutions for walls, ceilings and desk accessories
